HubSpot Academy / 2024

PROJECTS

BloodLink

Blood Link is a website that manages blood donations and inventory levels efficiently. It provides a platform for donors to register and schedule blood donation appointments while keeping track of their donation history. The website also helps hospitals and clinics manage their blood inventory, track blood products, and provide secure access to patient records. Blood Link streamlines blood donation, improves inventory management, and enhances patient care.

PORTFOLIO

I have developed a responsive and visually engaging personal portfolio website to showcase my skills, projects, and professional background. The website features a clean and user-friendly design, highlighting my expertise in web development, including HTML, CSS, JavaScript. It includes sections for an "About Me" page, skills, and project showcases.
